## Couture Fashion Week - Katerina Bocci

Model and Me

Katerina Bocci

Me

Backstage before going out in the show, it's a bit of a zoo. Last minute alterations to my dress to make it fit better and it's very cramped. Still the

models all have a very positive attitude and are ready to glide down the runway.

## Tech Girls Everywhere Snapping Photos

I really enjoy seeing models using tech. If you give them a reason then they are happy to learn. We have to break this old fashioned vision of women being non tech savvy. Women may not know or be interested in why it all works, rather they enjoy what it can do for them. Give a good reason to point and shoot.

## Couture Fashion Show

Casting

Planning out the girls

The makeup- not the left eye but the right. Makeup is diffused and the line is made softer.

Hair is pulled back

There are a lot of venues happening at fashion week, such as the couture fashion week venue. If you are tired of the normal tents then there are more and more venues popping up. I like walking for great people no matter where it is. I enjoy all kinds of professional fashion venues.
